ONE NATION-ONE TOTE

LAUNCH OF THE COMBINED NATIONAL TOTALIZATOR SYSTEM

NATIONAL TOTE / COMMINGLING:

National Tote / Commingling of pools, is the process where one Club combines its wagering pool with other race clubs to create **one common dividend**.

Customers wagering into a commingled pools can wager with more confidence as bigger pools will **potentially lead to better dividends**.

Importance of National Tote:

Previously, wagering on tote was operated by the individual clubs on their races with dividend pool limited to the centre. The dividend depended on the pool amount that the individual club collected and consequently the dividends were not the same at different centers. It is for this reason many horse racing aficionados had been advocating a National Tote which would not only beneficial to the Race Clubs but also to the Racing lovers.

Key Advantages of National Tote:

- Common rules and standards across the industry
- Increased stability of the pools
- Larger pool size that gives more confidence to the patrons
- Bring professional punters to the Tote System
- Potential better dividends
- Better racing experience
- Improved transparency and accountability of operations
- Overall Industry progress towards international standards.
